You're so skinny and pale, let me shape you into a man  
that I can call my man  
Teach you how to behave, use the right kind of words  
Nothing less or perfect, it's good enough for me

Stretch over and bend, yeah  
You really need to work it, baby  
Stretch over and bend, yeah  
Sweat and taste the blood in your mouth

I think it's time we discuss if you are worthy my trust,  
'cause I don't like to waste time  
Start to work out and show you are ready to glow  
Nothing less or perfect, it's good enough for me

Stretch over and bend, yeah  
You really need to work it, baby  
Stretch over and bend, yeah  
Sweat and taste the blood in your mouth

Bend over and stretch

Stretch over and bend, yeah  
You really need to work it, baby  
Stretch over and bend, yeah  
Sweat and taste the blood in your mouth

Stretch over and bend, yeah  
You really need to work it, baby  
Stretch over and bend, yeah  
Sweat and taste the blood in your mouth

Bend over
