She hates you, then she loves you more  
Underneath the shadows of her thoughts,  
shadows of her thoughts, she rings a bell for you  
I wish that she was a statue made of gold and nobody  
could bring her down

[Chorus]

Goodness knows I don't like sadness, she cries before  
she wakes  
And so my friend, if you love her, don't turn away  
Don't fight it  
Don't run away  
We're people, and we're animals  
You're thunder, and the heart is a cannibal

I ask you do you love me more than all the men that  
have ever come before, come before  
And when I'm a storm, kiss me,  
hurt me, heal me with your words, so nobody can ever  
bring me down

[Chorus]

When love is gone, your thoughts are calm  
Your words are holy, your days are long  
Your blood gets older, and your face is old  
And the days flow by like water  
You miss the stormy weather  
And she was gold

[Chorus]
