Warm nights in the city, someone's playing Latin in the  
park  
Street lights shining pretty, shadows on the lovers in  
the dark

It's the reason for the getaway  
Lay upon the roof and just forget about the day

Chorus:  
Back in the city, everybody moves to a different beat in  
the city  
See the motion, feel the heat of the city  
Something's happening in the streets of the city

Cool breeze on the river, making you aware that you're  
alive  
Bodies start to shiver, passions start to shift to  
overdrive

Picture feelings that you can't control  
Elementary voices calling deep inside your soul

chorus

(Instrumental break)

chorus repeats out
