He never spends a night alone, and what he spends is
never his own

He suits our own self, they're exclusively
But that doesn't mean they come off easily

He's a girl's best kept secret, girl's best kept secret
He's the world's best kept man, he's got a secret worth
knowin'

Oh he's playin' make believe, he comes anytime you
need
He does so fine, and this goes on, he's a real wild man,
you can't get off

He's a girl's best kept secret, girl's best kept secret
He's the world's best kept man
He's got a secret worth knowin', he's got a secret worth
showin'

(Solo)

He's got a secret, he's got a secret
He's got a secret, he's got a secret worth knowin'

He's a girl's best kept secret, a girl's best kept secret
He's a girl's best kept secret, a girl's best kept secret
He's a girl's best kept secret, a girl's best kept secret
He's a girl's best kept secret, a girl's best kept secret
He's the world's best kept man
