

Sheena Easton

"Christmas"

Visit "[Christmas](#)" on MotoLyrics.com

All my life, I tried to do what's right
First star I see tonight, make my wish come true
Why can't we, join hands around one tree
Let live and let it be
Make Christmas last forever

[Bridge]

When Santa's flying in his magic sleigh
Goes all around the world in just a day
From the North Pole to the southern tip
He makes his trip with love to give away
Here him say...

[Chorus 1]

It's Christmas...all over the world tonight
It's Christmas...all over the world

All my life, I learned if I was good
Did everything I should
My dreams would all come true
I can see, a special time when we
Join hands around one tree
And make Christmas last forever

[Bridge]

[Chorus 2]

It's Christmas...all over the world tonight (all over the
world)
It's Christmas...all over the world.

[Repeat Chorus 2 to fade]
