

Sheena Easton

"Don't Send Flowers"

Visit "[Don't Send Flowers](#)" on MotoLyrics.com

Carry on to the other side, have some fun on the other side

You were always trippin' on your feet

'Round the wrong way down the one way street

Since the day when you found your wings, you await too much better things

Now you never get the chance to see, what's been goin' on inside of me

Don't forget all the love I gave you on your way

Chorus:

Don't send flowers, just give me some hours

Just a minute of your time, would really make it shine, so think it over

Don't send flowers, from ivory towers

I just wanna see your face, forever and always, please think it over

Find your way through uncertainty, then one day, please come back to me

I'll be waiting in the weeks for you

If you find you don't know what to do

Darling, come back to me forever, but till then

chorus

Don't send flowers, just give me some hours

Just a minute of your time, would really make it shine, so think it over

Don't send flowers, don't send flowers, don't send flowers
