Scared to go to sleep, afraid of what I might dream
It's the same uncovered nightmare
Somebody's watching me, I can feel a presence, I wake
up screamin' in the dark
Can't tell imagine from reality
Skeletons in the closet, won't you stop haunting me
Chorus:
The things that go wrong in the middle of the night
Ghouls are knockin', I'm gettin' to like it, I like the fright
Things that go wrong, it's the fear of the unknown
It's a twilight zone (I like the fright)
Shivers down my spine, I hide under my pillow
I feel the room is getting colder
I'm terrified to close my eyes, afraid to move a muscle

I believe I can take it no more
Tryin' to hold on to my sanity, should I let this happen,
supernaturally
chorus
(Solo)
The things that go wrong, I turn up all the lights
I'm scared of dreamin', I'm gettin' to like it, I like the
fright
The things that go wrong, it's the fear of the unknown
It's a twilight zone, I like the fright
chorus
Things that go wrong, ghouls are knockin'
Things that go wrong, it's a twilight zone...
