"Ice Out In The Rain"

I was once your diamond, you said you were mine
And you burned inside me, when you looked in my
eyes
I should've seen clear through you, the crystal was
clear
When I reached to touch you, the magic disappeared, it
was fading, fading

Chorus:

Like ice out in the rain, so cold inside when you feel the
pain
Lost illusions just die away, I feel the same
Left like ice out in the rain

I was once your diamond, and they last so long
The light burns forever, nothing ever goes wrong
I was so mistaken, I relied on you
When you took away the fire, all you left me was the
truth, I was dying, dying

chorus

(Ice out in the rain, ice out in the rain)

chorus

(Ice out in the rain, ice out in the rain)
