You do your upper west side promenade in your latest
masquerade now
There's always someone who's fall for your line
Rich girls stuck with too much time babe
Y'always keep your sugar handy, just tryin' to steal
some candy
You got your finger on the trigger, you must figure that
makes you look bigger
I can't believe I'm

Chorus:

(Still in love) still in love, (still in love) here am I
(Still in love) out here waitin' for you on the corner
(Still in love) still in love, (still in love) don't know why
(Still in love) though the sign says "walk", I just wait

For you boy

The way you slide into the parking lot, oh my god, the
engine's hot now
The main attraction always draws a crowd
Where the music's strong, the drinks are loud, yeah
yeah
While Vanna White displays the prizes, you got 'em
hypnotized for sure
You got a rabbit in your tophat, so tell me baby, where
your head's at now
I can't believe I'm

chorus - yeah, I'm waitin' for you baby

Don't keep me waitin'

(Instrumental break)

chorus repeats out...
