Voice on the radio, voice on the radio  
Voice on the radio, voice on the radio)

Well late a lonely evening, the sound on the radio  
The music's not my style, so I move the dial  
Pick up a station that I didn't know  
His voice was so appealin', caught me with his sweet  
talkin' lines  
As his yells went by, I could've known the guy  
I was on his wave length and he was on mine

A voice on the radio, keeps turnin' me on  
A voice on the radio, keeps turnin' me on

Next day I wrote a letter, care of his duty oh  
I said that he was the best, asked if he played requests  
Sent him my number and a recent photo  
Not only got a mention, he phoned me to say hello  
But before I had time to lay my heart on the line  
The song was over and he had to go

Chorus:

A voice on the radio, keeps turnin' me on  
A voice on the radio, talkin' to me every evening  
A voice on the radio, keeps turnin' me on  
A voice on the radio, is it love or am I only dreamin'

I guess it's now or never, to make a person to person  
call  
If he forgets me forever, I'm just another girl on a  
photograph on his wall  
I'll make a person to person call

(Instrumental break)

chorus repeats out
