(Voice on the radio, voice on the radio
Voice on the radio, voice on the radio)

Well late a lonely evening, the sound on the radio
The music's not my style, so I move the dial
Pick up a station that I didn't know
His voice was so appealin', caught me with his sweet
talkin' lines
As his yells went by, I could've known the guy
I was on his wave length and he was on mine

A voice on the radio, keeps turnin' me on
A voice on the radio, keeps turnin' me on

Next day I wrote a letter, care of his duty oh
I said that he was the best, asked if he played requests
Sent him my number and a recent photo
Not only got a mention, he phoned me to say hello
But before I had time to lay my heart on the line
The song was over and he had to go

Chorus:

A voice on the radio, keeps turnin' me on
A voice on the radio, talkin' to me every evening
A voice on the radio, keeps turnin' me on
A voice on the radio, is it love or am I only dreamin'

I guess it's now or never, to make a person to person
call
If he forgets me forever, I'm just another girl on a
photograph on his wall
I'll make a person to person call

(Instrumental break)

chorus repeats out
