Let's get together and do  
What comes naturally

I've been holding back my love  
For such a long time  
Nobody's come along that  
I would want to call mine

My phone's been ringing but  
My heart, it just wont answer  
I can't pretend cause  
It's love I'm after

(I've been looking)  
I was not prepared for  
What I saw in your eyes  
I saw something I've been  
Waiting for a long time

(Let's get together)  
We just met but I know  
That you're no stranger  
I can tell that  
My heart's in danger

(CHORUS)  
I've been looking for you  
You've been looking for me  
Let's get together and  
Do what comes naturally  
There's a time to be wild  
There's a time to be free  
Let's get together and  
Do what comes naturally

I could play hard to get  
But what good would that do me  
You'd look into my eyes and  
You would see right through me

This is a powerful feeling  
That we're feeling

I can't deny  
It's my heart you're stealing

(I've been looking)  
I want to tell you now  
That I am not afraid  
I'll let the walls come down  
Tonight I'm feeling brave

(Let's get together)  
The risk is worth  
Any chance that I'm taking  
This could turn out to be  
Love we're making

(CHORUS) 2X

Oh, oh, baby  
Set your love free  
Falling in love  
Should come naturally

(CHORUS)

I've been looking for you  
I've been looking for you  
You've been looking for me  
You've been looking for me

Baby, set your love free  
Set your love free  
Let's get together and  
Do what comes naturally

(CHORUS) 2X to fade
