(With Eugene Wilde)

You laid your feelings on the line, I never stood a
chance
We found the perfect love this time, why let little doubt
turn us inside out

Chorus:

What if we fall in love, what if we can't get out
What if we're in too deep, guess we both got doubts
What if it doesn't last, what if the road gets rough
Only fools ask what if we fall in love

Life never gives a guarantee, love doesn't always last
Why worry 'bout our destiny, I'm with you tonight, let's
not question why

chorus

If you ever find yourself confused, if you ever think of
leaving me
Just remember how much I love you, love is never worry
free

chorus repeats 2x

What if we fall in love?
