She don't need nobody with what she's got
She only gets her kicks from 50,000 watts
She keeps 'em in her bedroom, and the D.J. gets her
static
For when a boyfriend picks her up, it's never automatic

Chorus:

She says no no no no no no no, she says no no no no no
no no
She says no no no no no no no
She's in love, she's in love, she's in love with her radio

When her favorite song comes on, ooh it's gonna make
her smile
And if you wanna go on with her, don't you dare to
touch that dial

chorus

(Solo)

She says no no no no no no no, she says no no no no no
no no
She says no no no no no no no, she says no no no no no
no no
She says no no no no no no no no no no no no no
She's in love, she's in love, she's in love
She's in love, she's in love, she's in love, she's in love
She's in love, she's in love, she's in love with her radio
