### Verse 1:

A mixed emotion, a state of mind, infatuation of a  
different kind  
Hesitation's holding me back from you, fascination's  
drawing me near  
There's a strange reaction caught between attraction  
and fear, oh oh

### Chorus:

You make me nervous, makin' me nervous  
You make me nervous, I wanna hold you but I'm scared  
I lose control  
You make me nervous, makin' me nervous  
You make me nervous, what you're gonna say or what  
I'll do I never know

### Verse 2:

Anticipating your every move, my nervous breakdown  
is up to you  
Doesn't take a psychoanalyst's mind to see  
Just what it is that's keeping me here  
There's a strange reaction caught between attraction  
and fear, oh oh
