"Tallest Tree"

Visit "[Tallest Tree](#)" on MotoLyrics.com

(Signs change but the buildings stay the same)
Signs change but the feelings stay the same
Hope, discontent, find someone else to blame
When you leave this town will stay the same
Spend summers waiting for the rain
Cut down the tallest tree in town
Build a wall and tear it out
Get down closer to the ground
It's uphill all the way home
Don't go
Spend summers waiting by the phone
(No!)
Stand out in the rain
To get the flow back in
Last night I dreamed about your face again
Old friend
Cut down the tallest tree in town
Build a bridge and then you tear it out
Get down closer to the ground
It's uphill all the way home
