What's a man without all the attention?  
Well, he's just a man  
And, why do you fear that no one will hear what you've  
got to say?  
Who am I without all your affection?  
I'm a nobody too  
I'm not above being unloved if that how I've got to pay

Chorus  
And you can tell everyone, everyone  
That I've got your number, son  
Cause I can shine my light on  
I can shine my light on too  
Cause I can shine my light on  
I can shine my light on too

I don't want to spend night after night with you  
While you figure it out  
While you're getting restless, I'm getting restless  
looking at you  
I don't want to be your rock in hard times  
Cause I've figured you out  
And you're a man who can understand anyone but you

(Chorus)

Bridge: Would I sacrifice myself  
At the altar of someone else's love for me?  
No, that doesn't comfort me

You think you can creep in the shadows  
While you figure it out  
I've listened to enough of all of your stuff to fill  
a book or two

(Chorus)
