Well I'm back in your good graces
Again
Remember when you told me
That I was your only friend
Well you made the best of this life
Where you never knew
One day from the next
Dig your heels in a little girl
Put them to the test
You gotta be kind to yourself
You gotta be kind to yourself

Well I heard you had the blues
Again
Seems like all those little things
Add up in the end
Well I know that you heard a lot about
Things you can't control
So many things we like to have
We just cannot hold
You gotta be kind to yourself
(Badadada Badadada)
You gotta be kind to yourself
(Badadada Badadada)
You gotta be kind to yourself
(Badadada Badadada)
You gotta be kind to yourself
(Badadada Badadada)
