(Verse)

You keep trying to forget about the good times  
Does it make you fall a little better?  
Im not alone, I only pick the flowers  
Kind of makes you feel a little worthier.  
But the chillin turn out fine  
I got the pieces if you got the time.

(Chorus)

And I want you, I dont wanna forget  
If you go Ill surely get distracted  
And I want you, I dont wanna forget  
If you go Ill surely get distracted.  
I want you, somebody sweet to talk to,  
Somebody sweet to talk to.

(Verse)

I dont wanna get stuck in my ways again,  
Im just asking you to stay a couple hours.  
I got back to the road where I started  
Looking instead of always picking flowers.  
Plus the children who turned out fine,  
Ive got the pieces if you got the time.

(Chorus)

And I want you, I dont wanna forget  
If you go Ill surely get distracted  
And I want you, I dont wanna forget  
If you go Ill surely get distracted.  
I want you, somebody sweet to talk to,  
Somebody sweet to talk to.

(Chorus)

And I want you, I dont wanna forget  
If you go Ill surely get distracted  
And I want you, I dont wanna forget  
If you go Ill surely get distracted.  
I want you, somebody sweet to talk to,  
Somebody sweet to talk to.
