I'm the meanest man, I got a five-sided brain
Most folks round the world think I'm insane
But it doesn't phase, not one bit
You say I'm crazy, I don't give a sh*t
I'm mean

I'm mean to my mother, mean to my brother
Mean to anyone I think of as an "other"
And if you won't play nice with me
I'll make sure you're dead before you're ever free
I'm mean, maybe when I grow up I'll be nicer
No, I'll probably still be mean

I like to play rough, I like to kick ass
I like depleted uranium and sarin gas
I make others folks use these things for me
And then deny the existence of PTSD
And Gulf War Syndrome, same thing I did with Agent
Orange
See I always been mean

I'm mean in the East, mean in the West
Free Market meanness is what I like best
I go around putting lots of folks in debt
And charge em too much interest
The econ people call it Structural Adjustment or-or
Neoliberalism,
Artificial Market Fluctuation, I just call it mean

I go around overthrown a lot of governments
With the army or eco-no-micks.
For fruit and gold and gasoline
I've funded many a mean machine
Folks like Suharto, Augusto Pinochet, Manuel Noriega,
Ngo Din Diem, Saddam
Hussein, Armas, Marcos, Galtieri, The Contras, The
Shah of Iran, and many
others
And Osama

My international aims are high

But locally I'm the same mean guy
Paying minimum wage works out well
To keep folks in ghettos and prison cells
There's an old saying in Tennessee, or Texas,
Well maybe it's in Tennessee, I know it's in Texas
It says "No blacks, no dogs, no Irish"
I like that... I like it cuz it's mean

I own the streets, I own the ports
I won the prisons, I won the courts
If I wanted to I could own your apartment
And of course I own the police department
Helping me do the best of my dirty work
Breaking bones, breaking dreams, breaking families
up too

I profit from war, profit from jails
Profit from diseases, profit from sales
I profit from things you'd think would sadden me
I even found a way to profit from tragedies
Things like hurricanes, refugee crises, anthrax
outbreaks, bird flu,
homelessness, deforestation, dandruff, cyborg
attacks, the loch ness
monster, pit bull attacks, raging chihuahas
These all my little angels
Keeping people living in fear.
not thinking about the things i do, thats for sure.

I got a lot of other folks who roll with me
Like the Saudis Royal family and South Kore'
Israel, Australia and Pakitsan
And my little old cousin named England
And Haiti too, sometimes I have to kidnap their leader
and instrall one of
my own but it seems to work

Hugo Chaves doesnt role with me
He doesnt like my type of Hegemony
He called me a devil on live TV
He's right, I'm mean
But listen Mr. communist, I dare you to come to the next
UN conference
Cuz I'll blow up your helicopter, or poison your cigar
[I don't smoke cigars]
Shut up! I don't care! Dork!
I don't like the UN anyways...
...Communists

Well some folks don't like what I do
I guess they're all Islamo-facists too

When folks question me really get me going
I'm just trying to keep this oil flowing
Get rid of trade barriers, keep people working long
hours, break up
unions, hurt people, steal people's lunch money, hurt
puppies, keep
generic AIDs medication out of the hands of poor
people,
profit from the establishment of sweatshops in the
Global South, other mean things too.

Oh yeah, and I'm pro life too.
