Well if you wanna break a union here's what you gotta do

Get yourself a video tape of 2  
About the union, how it's bad  
About Communism and all of that  
And make the workers watch it  
Let em' know your on to their dirty scheme

Now try to find who's organizing  
Track em' down and identify em'  
Follow em around throughout the day  
Or fire em' if you can get away with it  
Have a good excuse though  
You don't wanna get sued

Now if you're company's small you might wanna save face  
By giving your team a little payroll raise  
Make it seem as if it's out of the blue  
Just the kind of thing a good boss would do  
You'll be the most popular guy in the franchise

Now something that might work a little better  
Is to say someone stole from the cash register  
Now you can fire whoever you please  
As you uncover a big conspiracy  
Funny, they we're all organizing the union  
Ironic isn't it?

If you've got an outside agitator  
You might wanna try a restraining order  
Just make a scene and huff and puff  
And then hope the cops don't call you're bluff  
They'll probably take your side  
Chances are they hate those socialist immigrants as much as you anyways

If you're company's big and you're profits might fall  
You can probably get the feds involved  
You tell em' the worker's have fake I.D.s  
And they're threat to National Security

They might just take care of that union for you  
Deport a bunch of people for being underpaid  
Ain't your fault.

Now if you still can't shake your union blues  
You can always kill em', that's what they used to do  
You get a hired thug or a death squad  
I bet Blackwater of Wackenhut  
Would take the job  
They're doing it everywhere else anyways.  
You might as well try em'  
Blackwater can be reached at area code 252-435-2488

Now if the union wins, against all odds  
Make sure you get a "no strike clause"  
The next best thing to total control  
Is a union that ain't got no soul  
And that's how you break or co-opt a union  
Good luck my friend  
May your profits soar and you're unions perish!
