Sister's got a place she goes whenever she's lonely
It's so much fun
Brother cries whenever he's lonely
And he's lonely cuz he hasn't one
But that's cool cuz...

Sister's got a place she goes whenever she's lonely
She's got a toy box
Love, it comes so easy when the children open doors
Doesn't matter who knocks

Sister's very kind so it's never quite a problem
When it comes 2 love
Everything's so easy when we're children
One touch is 2 much
Oooh

Sister's got a place she goes whenever she's lonely
She's got a toy box
Love, it comes so easy when the children open doors
Doesn't matter who knocks

One touch, one touch, one touch is 2 much

Why we hide our feelings when we're older
Is a movie I don't want 2 see (I don't want 2 see)
Truth is all that matters in a month of Saturdays
When U're 17 (When U're 17)

Sister's got a place she goes whenever she's lonely
She's got a toy box
Love, it comes so easy when the children open doors
Doesn't matter who knocks
Sister's got a place she goes whenever she's lonely
She's got a toy box
Love, it comes so easy when the children open doors
Doesn't matter who knocks
(She's got a toy box)
(Knock, knock)

Sister's got a place she goes whenever she's lonely

She's got a toy box (toy box)
Love comes so easy
She's got a toy box

One touch, one touch, one touch is 2 much
