Turn me loud!
(Aftershock)

Y'all better stop for a second
It's gotten hot up in here
Now, I can't shake the feeling
There's something burning in me
I'm a beast on the base drum
When I'm rocking the beat
With my 808, with my 808

I lost my mind inside this drum, drum
The bass is hitting hard, hard
I'm losing all control
I don't wanna stop til we see the crack of dawn so
Dj won't you just turn me loud?

Turn me up louder if you really want more
Like I've never been before
Wanna take over the floor

Turn me up louder if you really want more
'Cuz we going all night long
Turn me up if you want more

Gotta glass in my hand and now I'm drowning myself
Gimme a second before I start giving hell
Welcome to my freak show, freak show
What you looken at? I ain't finished yet!

Get ready to get down, down, down
Dj turn it loud, loud, loud
I'm losing all control
I don't wanna stop till we see the crack of dawn so
Dj won't you just turn me loud!

Rock that body, rock that body...
