This is the harmony derived from symphonies that I do
believe and this is all
That I have
I'm falling further from what I have truly become bathe
in the morning sun and
Call ever so quietly through the breeze silently for the
rain to fall and wash
Away us all evaporate the remains and crawl deeper
inside ourselves one in the
Same

[Chorus:]

Black as your new sun visions emotion sink into your
gun as it breeds
Sick devotion and when you finally do fall the
pavement will meet you blood
Splattering earth shattering teeth chattering your so
fucking flattering this
Is the horrific dark hole we find I lay sedated as time
does unwind god bless
Your sweet heart as those eyes look in mine they slowly
roll back know this
Shades undefined

[Chorus]

All the way drifting further through this day I do know
have one thought and it
Is everything and nothing all in one so step up or step
off I got a reason to
Fulfill this prophecy this rhythm is in my blood in lives in
what I see I see
The color refracted by the prism hidden in your
reflection but in further
Inspection reality is buried under statistics beneath the
ballistics and I hope
You can hear this cause intertwining is a phrase that is
defining black as your
New sun that is so darkly shining so look away the
shadows dance and they got
Nothing to say no need to pray this is the color of

shades and all my disarray

[Chorus]
