I'll be the victim bleeding in the gutter you be the
phantom in the wind it
Shudders send me on my way to soulful sweet decay
for the last breath I'll wait
In vain the sweet sound that drives me insane every
last one of us will
Eventually forget why we came

To forget were the same
Disconnects our hearts in the same breath I'll smash it
all with one single
Attempt they'll stand back and scream with contempt
that you are not god but
You're my master better start running through time
much faster

[Pre-chorus]
Drift to the sound shallow halls of silence impound and
Desperation is finally here

[Chorus]
Swallow my own reflection voices taunt from all
directions

[Pre-chorus]
It's catching up on your heels it's plastered self-
realization and know your
Levitating back through your own deception seems like
you've lost the
Connection rifled through time the blackened divine
with colors in my mind I'll
Paint in words sickly sublime the plight of the weak is
found in the streets

[Chorus 2x]
