All the light fades away darkness now will decay every  
being on this earth I'm  
Entranced by sudden ways movements and glances my  
way haunt me in my dreams  
Live life like a dream where nothing is quite what it  
seems the light in your  
Eyes does gleam burn bright for all to see describe  
with words that do so  
Softly take me away to another day crawl through my  
disarray and find myself  
Somewhere beneath the clouds deep stares serenely  
sound similar to prophetic  
Lunacy when we fall away rise and return someday our  
paths are intertwining In  
Everlasting sun rays walk with the spirit unafraid and  
let the vision begin  
Paradiseum.
