Verse 1

Baby I must leave you soon
Its all I know, how to protect myself
You say you want to know
I reveal and then I

Verse 2

Show..oh..I'm the fool
Cos I can't find you anywhere
An' I am left here on this beach
With these fruits of ours
They are rotting in the sun
Come..

Come to me again
This time I will give you my mouth

Verse 3

I've been quizzing all the trees
One by one
What they know of your alchemy please
Cos you reveal myself to me
In my darkest place
You've unlocked and left my cells
And depart with out a trace
