lay low, lay low.
keep your head above the water,
like the turtle taught you

sing high, sing high
way above the dogma,
that's where they haven't gotcha.

in all directions heal infections....

hold your poise, balance will be here
what joy employs, yeah balance will be here
keep your stance cos justice will arrive.
confidence

grow back, grow back,
show them to your daughters
like the clear cuts taught you.

in all directions heal infections

hold your poise.....
