Alright, what it is?
It's called love thing
I get get get it, I get get get it
Strictly for the oh my lady

Baby know your look so blinding cause your beauty so
fine
Baby know your lips so hot, hot like the sun
I'm just getting on my way, I'm just heading to you
girl
Right now tonight tonight

Though I play it cool like I do you got me girl
Though I'm trying to get you out, get you out my head
I'm just heading to you girl, I'm getting to you girl
Tonight tonight tonight

'Cause everyday everynight I see you my baby
You drive me crazy
Come on, come on, come on, come on
Come on, come on, come on, come on
I wanna be with my girl

She is my girl, don't touch touch
Oh my baby girl, don't touch touch
'Cause you are the one oh my only one
Girl nobody can't just do it like you

She is my girl, don't touch touch
