I defy

I defy I love your way  
How could it be different  
I defy I love your way  
(well) how could it be different

Now I'm kissing the real you  
Now I'm kissing the real you

Will I get through my dark day  
Can you hear me  
Can you hear me

Ooh oh ooh oh ooh oh ooh oh  
How could it be different

I see the stars around your face  
They never seem to hurt at all  
The stars around your face  
They never seem to hurt at all

Now I'm missing the real you  
Now I'm missing the real you

Well, I got through my dark day  
Did you fear me  
Did you fear for me

Ooh oh ooh oh ooh oh ooh oh  
How could it be different

I don't want to see my baby fall  
It's the dawn I feel becoming ever after  
This is my matter, dear

I defy I love your way  
How could it be different  
I defy, I love your way  
How could it be different

Well I got to know you today  
And I adore you  
I adore you

Oh now I'm loving you  
Oh now I'm loving you  
How could it be different

Oh now I'm loving you  
Oh now I'm loving you  
How could it be different
