They say these rites are dangerous  
They say we are insane  
I'm only here to help you  
Fraternize with Cain  
It's a black mass and I'm ready to go  
The dagger has been stained  
We'll call the demons you've dreamed about  
And soar the cosmic plane

The magic cup is passing  
From the high priest's learned hand  
The enchanted one is sending  
Magnetic thought commands  
There's a circle forming in my mind  
As we invoke the devil's name  
The pentagram and the stars have aligned  
The words that chill the brain
