Save me

I don't want to live for tomorrow

Save me

I don't want to live for tomorrow

Save me

I don't want to live for tomorrow

I don't want to live for the dying chance

If you're already good as gone

If you're already good as gone

I don't want to live for another

Take me

I don't want to live for another

Take me

I don't want to live for another

I don't want to live for the dying chance

If you're already good as gone

If you're already good as gone

'Cause we live under the common tree

But I'll learn to leave us there

With all the fruit

Still searching (still searching)

Still looking in your eyes

For a sign

I need to know

I don't want to wait any longer

Race me

I don't want to wait any longer

Erase me

I don't want to wait any longer

I don't want to wish and hope and pray

If you're already good as gone

If you're already good as gone
