"March Of The Cage"

We take on the world wherever we go. Nothing will stop
us that is our
Oath. All of the evil beneath crawling up from below.
We will deliver
Defeat we won't take anymore. Marching forever we go
but we want to
Go higher. Follow us straight down the road and into
the fire

With infinite malice we shatter the night and then we
destroy in the
Name of what's right. Under our flickering glow like a
beacon we shine.
The fallen will cower in fear to our all seeing eye

[Chorus]
The frequency that we invoke is your purifier

Listen your life in danger. Fortune and fame don't
make them a stranger.
Follow you heart and you're laughing at danger. Run to
your dreams and go!

[Chorus]
March of the CAGE!
