"The Bright Lights"

Visit "[The Bright Lights](#)" on MotoLyrics.com

Everybody wants to live a kind life
Everybody wants what everybody desires
And everybody wants to hide from the bright lights
Everybody want everybody hangs high up

But I don't mind what you're saying
You don't even know what it feels like
I don't mind, it's only a chance of a life time

Everybody wants everything that comes free
Everybody's thinking will anybody want me
Everybody wants to hide from the bright lights
Everybody wants everything that hangs high up

You say "If I may turn you on, come and get the best of
me"
So you won everything
