I feel Your peace  
You're here with me  
You bring me all I need  
Lord breathe on me

And as I wait  
Draw near to me  
My soul it longs for You  
To breathe on me

Jesus...  
Jesus...  
There's no one else like You  
There's no one else like You

Lord, Your presence fills this place  
As we glorify Your name  
There is no one else but You  
Jesus my saviour  
Jesus my saviour

Let the whole world worship You

I feel Your peace  
You're here with me  
You bring me all I need  
Lord breathe on me

And as I wait  
Draw near to me  
My soul it longs for You  
To breathe on me

Jesus...  
Jesus...  
There's no one else like You  
There's no one else like You

Lord, Your presence fills this place  
As we glorify Your name  
There is no one else but You

Jesus my saviour  
Jesus my saviour

Lord, Your presence fills this place  
As we glorify Your name  
There is no one else but You  
Jesus my saviour  
Jesus my saviour

Let the whole world worship You

Let the whole world worship  
The whole world worship  
The whole world worship You (repeat 3x)
