No one would love me
If they knew all the things I hide
My words fell to the floor
As tears drip through the telephone line

And the hands I've seen
Raised to the sky
Not waving but drowning
This time
I'll try to build the ark that they need
To float to you upon the crystal sea

Give me your hand
To hold
Cause I can't stand to love alone
And love alone is not enough
To hold us up we've got to touch your robe
So swing your robe down low
Swing your robe down low

Prince of despair's been beaten
And the losers still fight
Death's on a long leash
Stealing my friends to the night

And everyone cries for innocent
You say to love the guilty, too
And I'm surrounded by suffering and sickness
So I'm working tearing back the roof

Give me your hand
To hold
Cause I can't stand to love alone
And love alone is not enough
To hold us up we've got to touch your robe
So swing your robe down low
Swing your robe down low

And the pain of the world is a burden
And it's my cross to bear
And I stumble under all the weight

I know you're Simon standing there
And I know you're standing there

Give me your hand
To hold
Cause I can't stand to love alone
And love alone is not enough
To hold us up we've got to touch your robe
So swing your robe down low
Swing your robe down low
