I had my share having half your love
Isn't fair
Right from the start all you did was
Mess up my mind
Now comes my turn with a broken heart
I've learned

*One Love all you need is One Love
Forever
One Love all you need is One Love
Forever
One Love and it's you and me together
Forever and ever Babe
Forever and ever Babe

All you need is One Love
Only one, only one, only One Love
All you need is One Love
Only One, Only one, only One Love (fade)

Note: Repeat chorus twice *
