"Got Me Good"

Visit "[Got Me Good](#)" on MotoLyrics.com

You Got me good
You got me going strong
I got nothing say about my own body and soul
You got me rolled up in the corner now
I got nowhere else to go
I got nowhere else to go
I lost control

And I got a little thing that I wanna say
Cos tonight I got the feeling
That maybe it's alright
For you and I to spend our days in each others arms
Cos I feel like we got something good going on

You got me good
I wonder where my head has gone
There is no such thing as silent's in my head
These days are colored
I go up and down
I got nowhere else to go
I got nowhere else to go
I lost control

And I got a little thing that I wanna say
Cos tonight I got the feeling
That maybe it's alright
For you and I to spend our days in each others arms
Cos I feel like we got something good going on

And I got a little thing that I wanna say
Cos tonight I got the feeling
That maybe it's alright
For you and I to spend our days in each others arms
Cos I feel like we got something good going on
you know we got something good going on
Going on
