Come to my  
Play house  
And have a little fun  
Let all of the smoke  
And the mirror distract you from the thinking  
That I'm not the one  
I could never do you wrong

I don't want anybody but you  
I want to be your only fool

If you let em in I will  
Change all the parts of my heart  
Turning it to whatever  
You wanted so that you will carry in your arms  
I could never do you home

I don't want anybody but you  
I want to be your only fool

So I'll wait for you my love  
I will wait for you

I don't want anybody but you  
I want to be your only fool  
I don't want anybody but you  
I want to be your only fool
