Love is tumbling
dreams are crumbling
We are looking for a place
to hide
People are hurting
politicians certain
They got
GOD on their side
And they're saying that he's talking to
personally
but it's sounds like the devil to me!

How there is some slaving, there is no saving
I'm never gonna see it down
I ain't got
helping
Lot it they fear
I can't leave it or for to die
They said they treat us all just like family

But it's sound like the devil- sound like the devil-
Sound like the devil to me!
But it's sound like the devil- sound like the devil-
Sound like the devil to me!

I want a real smooth talkers
That people lonely, their, spell
And that's what it takes to get the Heaven
Somebody save me a good spy in the Heeell!

Preacher told me, the number is tall free
God is ready no wash away, all my sins.
I know they're saying, yes it's just, but I am
I've seen all my dare losing
Lord forgive my suspicious personality

But it's sounds like the devil- sounds like the devil-
Sounds like the devil to me!
Lord it's sounds like the devil- sounds like the
devil-
Sounds like the devil to me!
Yes sounds like the devil to
Sound like the devil to meeee!
