Can you hear me from above?
Do you feel the pain inside of me?

Rushes through, winter in the air
Passing by, no one cares to stop

Can you see me from above?
Do you share my frozen memories?

Setting sun, leaving me alone
Silent dark, saying not a word

Let the snow paint me
Please give me a brand new start on life
Just again, once for all
Let the snow paint me
Please give me a break from yesterday
Smile for me, take my hand

Let the snow paint me
