#### Verse 1

I want to get close to You  
I need You by my side in every second of my life  
I've been going my own way  
And it hasn't been working out  
I need You right now

#### Chorus

You're all I ever needed  
You alone are my source of life  
And You're all I'll ever need  
I can depend on You, in everything I go through

#### Verse 2

When I'm living without You,  
And the whole world's up against me, there's nothing I  
can do  
But when I give my life to You, I'll never need to fear  
the Earth  
Because You turn my heavy burdens into feathers  
But when I give my life to You, I'll never need to fear  
the Earth  
Because You turn my heavy burdens into feathers

#### Chorus

You're all I ever needed  
You alone are my source of life  
And You're all I'll ever need  
I can depend on You, in everything I go through

#### Guitar Solo

#### Chorus

You're all I ever needed  
You alone are my source of life  
And You're all I'll ever need  
I can depend on You, in everything I go through
