with my perceptions is a mix  
down 20 miles through the sticks

to the cloudy town of hellview population 96.

excessive vacancy, well maybe  
in the shadow of an eye  
all the strangers pass right through  
and where the rules just don't apply

at the fork turn left a store  
but on the right stay free from sight  
'cause 96 quite bitter beings like to stack the bodies  
high

the only way to ever leave is  
overflowed by the storm  
an entanglement in Hellview  
brings you fear in fifty forms  
they've deleted all the tourists  
at the bottom of the lake  
and not one supports the cause  
to leave the blood stay in the veins

Here, three miles back is where we are  
all we ever wanted was an answer  
civilized are close but way too far  
all we ever wanted was an answer

Footprints giving clue to where we are  
all we ever wanted was an answer  
civilized are close but way too far  
all we ever wanted... (echo)

in the shadow

at the bottom of the lake

and not one supports the cause  
to leave the blood stay in the veins

here, 3 miles back is where we are  
all we ever wanted was an answer  
civilized are close but way too far  
all we ever wanted was an answer  
footprints giving clue to where we are  
all we ever wanted was an answer  
civilized are close but way too far  
all we ever wanted
