Is it love that you give
When you come to me
It's a drug that I need, it's a guarantee
Yooou can take me so high
It's the curve of the world I see
I'm on a joyride when you lay your hands on me
You take me

All the way to Marakesh
All the way on the love express
You take me
All the way to Marakesh
All the way from east to west, hey
Climb aboard that train now
Ride on that train, yeah
Climb on that train to Marakesh

Is it night, is it day, is it just a paper heart
Is it tricks that you play in your house of cards
Is it truth that I touch when I'm holding you
I'm on a joyride when you do the things you do
You take me

All the way to Marakesh
All the way on the love express
You take me
All the way to Marakesh
All the way from east to west, hey
Climb aboard that train now
Ride on that train, yeah
Climb on that train to Marakesh
