Cover me up, cover me down
Cover me with your eyes
Take me for granted, take me right now
'Cos what I want wat you want, I want what you want
Bite on the apple, bite on my lips
Dream all my nightmares away
Let me wake up inside your painting
'Cos I want what you want today
Make me over, take me over

Colour me red, colour me blue
Colour me any way that you want to do
Colour me red, colour me blue
'Gotta a heart of gold when you touch my soul
Colour me you

Ride me to heaven, ride me too far
Ride me inside your clothes
Wear me like silver, wear me right now
'Cos I want what you want somehow
Make me over, take me over

Colour me red, colour me blue
Colour me any way that you want to do
Colour me red, colour me blue
'Gotta a heart of gold when you touch my soul
Colour me you
