I want to feel that white hot fire
Burnin' in my chest
I need long cool wet kisses
Who'd want to settle for less
I don't know where it's gonna come from
But there's gotta be more than this
I don't know what path I'll find it on
The only thing I'm sure of is

I'm gonna keep followin' a feelin'
I wanna take that crazy fall
I'm going down each road that calls me
Join the dance, take the chance, risk it all
I've had what I've had
Been there, done that, now I want more
I'm gonna keep followin' a feelin'
Til I find what I'm looking for

Yeah
Sometimes you gotta lose yourself
Before you find the truth
Sometimes you gotta let go of your dreams
Before they come back to you
There's a healin' in forgiveness
Real power in a touch
Sometimes you gotta hit rock bottom
Before you know which way is up

I'm gonna keep followin' a feelin'
I wanna take that crazy fall
I'm going down each road that calls me
Join the dance, take the chance, risk it all
I've had what I've had
Been there done that now I want more
I'm gonna keep followin' a feelin'
Til I find what I'm looking for

Yesterday's behind me
And when tomorrow finds me

I'm gonna be followin' a feelin'

I'm gonna take that crazy fall
I'm going down each road that calls me
Join the dance take the chance risk it all
I've had what I've had
Been there done that now I want more
I'm gonna keep followin' a feelin'
Til I find what I'm looking for

I'm gonna take that crazy fall
I'm going down each road that calls me
Join the dance take the chance risk it all
I've had what I've had
Been there done that now I want more
I'm gonna keep followin a feelin
Till I find what I'm looking for

Followin' a feelin'
Gonna take that crazy fall
Yeah
Followin' a feelin'
Terrified
What I'm looking for
Followin' a feelin'
