~ Verse 1 ~

The rain has stopped fallin'
There's a hush in the air
You can feel the night holdin' its breath
We've stripped our defenses
Our souls are laid bare
Let's put our fears to the test

* Chorus *

Come to me now with a love unafraid
Lay your heart down and stay
Leave the window open
Don't pull the shade
Let the morning sun show that we've made
Love unafraid

~ Verse 2 ~

The moonlight is chasin'
The shadows away
We got no more secrets to hide
So don't fight this feeling
Don't be ashamed
Of the need we've been keepin' inside

* Chorus *

:: Bridge ::

Make no promises
Tell no lies
And don't close your eyes

* Chorus *
