But I really don't want nobody in our business

Baby can you keep a secret about every little thing we  
do

Don't want the girls to know cause they all hate on me  
And you know I voiced to, to keep this secret

Babe come and let me holla at you(yea yea)  
This is what I need you to do  
Stop tellin my girl business  
Rumors are endless I can't take this  
Got to promise not to tell a soul  
About the things we do when we're alone  
Cause I love you and I need you  
Can't lose you keep a secret boo

Baby can you keep a secret about every little thing we  
do

Don't want the girls to know cause they all hate on me  
And you know I voiced to, to keep this secret

Baby can you keep a secret about every little thing we  
do

Don't want the girls to know cause they all hate on me  
And you know I voiced to, to keep this secret

We both know Alicia wants you  
She'll do whatever she gotta do  
To make her son happy  
Make you not want me  
Baby can't you see  
Nobody wants us together no  
So keep it quiet keep it on the low  
Cause I love you and I need you  
Can't lose you keep a secret boo

Baby can you keep a secret about every little thing we  
do

Don't want the girls to know cause they all hate on me  
And you know I voiced to, to keep this secret

Baby can you keep a secret about every little thing we  
do  
Don't want the girls to know cause they all hate on me  
And you know I voiced to, to keep this secret

Please baby keep a secret  
Between me and you  
If you wanna have my love  
This is what we gotta do  
Oh we gotta keep a secret  
Oh we can't let nobody know  
Oh baby we gotta keep this secret  
Cause it's the best thing for us

Baby can you keep a secret about every little thing we  
do  
Don't want the girls to know cause they all hate on me  
And you know I voiced to, to keep this secret

Baby can you keep a secret about every little thing we  
do  
Don't want the girls to know cause they all hate on me  
And you know I voiced to, to keep this secret

Secret secret keep us a secret  
Secret secret keep us a secret
