Given life of mortal flesh  
Blessed with unhuman might  
Life amongst the living dead  
This curse I cannot fight

I transform, I declare war...

... against the fools unaware  
Don't try to sleep I'll be there  
To hunt you down again  
Evolution knows no remorse

Am I cursed with genius,  
Or am I struck by bliss?  
Either way it's killing me  
I have to rid all the less

Evolution, I transform  
Evolution, I transform, I declare war...

... against the fools unaware  
Don't try to sleep I'll be there  
To hunt you down again  
Evolution feels no remorse

How many years 'til you wake up?  
Death comes in season, always on time  
Stuck in a box, cornered to the middle  
Lifecycle genetic, create and destroy

... against the fools unaware  
Don't try to sleep I'll be there  
To hunt you down again  
Evolution feels no remorse
