Life begins too late nowadays  
So much we shall fulfill  
We push our lives too much into the future  
Before we dare to live

Catch your dreams, make'em happen now

Make up your mind  
No one knows what's waiting on the edge  
Live now if there's no tomorrow  
Make up your mind  
No one knows what's waiting on the edge  
Live now if there's no tomorrow  
Live now you may die today

Education seems like a good choice  
Our future is secured  
Years from now we're grasping the glory  
We earned at younger days

We forgot our present, we forgot about today

Make up your mind  
No one knows what's waiting on the edge  
Live now if there's no tomorrow  
Make up your mind  
No one knows what's waiting on the edge  
Live now if there's no tomorrow  
Live now you may die today
